WE HOPE TO CURE YOU OF ANY PREJUDICES YOU MAY HAVE AGAINST LAUNDRIES—AND TO KEEP YOU CURED AS LONG AS YOU

Have Your Work Done Here

One prevalent notion about laundries, of which an experience with this laundry will cure you, is that "they destroy fabrics."

Even the most delicate fabrics are uninjured here—while if laundered at home they might really be in danger.

this time to state just which of these two received the greater amount of votes, but it looks as if Morales is the favorite. Fronteras, Arispe, Ures, Guaymas and Hermosillo gave Morales good majorities, while Nogales went for Bonillas.

In the race for congress, I. F. Pascuella and J. Cordova seemed to have no opposition until election day, when the Talamantes club sprung Pedro Bracamonte and C. Lopez on the other club. The result is that the two latter candidates had a walk away in Cananea. Reports from other prefects in Cananea municipality seem to point to the selection of Bracamonte and Lopez.

FEDERAL BULLETS KILL GENERAL CLEOFES MOTA

Guadalupe, Mexico, Aug. 1.—Cleofes Mota, leader of the band of Maderistas, who rose in arms against the government in Jalisco about 10 days ago, is dead in Chapala from wounds received in a hand-to-hand fight with pursuing federal troops near Ajijic, according to information reaching here.

Mota was a general with the revolutionist forces, but since the declaration of peace he became dissatisfied with the authorities appointed and started out on a new career as a rebel. Seven of his men were killed a few days ago in a brush with the federal army, after which many of his followers deserted. Yesterday Mota, with a struggling band of faithful ones, was surrounded and in a close range fight was shot twice. He crawled away into a canyon and stayed there until the federal troops left the vicinity. Later he was picked up by a passerby on a mountain trail, where he had fainted from loss of blood. He was taken to Chapala, where he died.

WOMAN LEADS IN FIGHT AGAINST SNAKES IN DRY ILLINOIS TOWN

Drouth Starts Epidemic of Reptiles and the Citizens Take Up Arms.

McLeansboro, Ill., Aug. 1.—Several poisonous snakes have been killed here within the past two weeks. It is thought that the long dry spell in this section has caused them to come out in search of water. They were seen in nearly every case they were discovered by women. Besides, Mc-

Leansboro has been a dry town for several years.

The first was discovered by John Zashman on the workbench in his harness shop here, where he and his helper had been working for at least an hour before discovering it behind some material. It was promptly dispatched and was on display for a few days to convince the skeptical of the veracity of the slayers.

This week Biddy, the pet hen of Mrs. H. S. Beard of the west part of the city, has the honor of discovering a deadly spreading adder. Her continued clucking attracted her mistress.

FEDERAL TROOPS TO SUPPLANT MADERISTAS

One Thousand Are to Do Guard Duty Instead of 800 Maderist Rurales.

Torreon, Mex., Aug. 1.—One thousand federal troops are coming to Torreon and it is good news to the people of this district.

The plans which were reported to have been made for the recruiting of 800 more Maderist rurales in this district, have been changed since the arrival of general Emilio Madero, chief of the second division of the north. General Madero arrived here with four military instructors and several paymasters. He stated that he would not be able to make a public statement for several days but said that there would be no more recruiting of volunteers here for the mounted rural service. One thousand federal troops will reach Torreon in about one week under the command of general Vega.

Torreon has been tranquil for several weeks, despite rumors of an impending attack on foreigners, which have been in circulation here and which found their origin in the distribution of dodgers published in Gomez Palacio by irresponsible persons who have no following whatever.

Emilio Madero will continue in command of the second division for the present despite his desire expressed several weeks ago to retire from military activities. He will soon visit San Pedro. A carload of arms and ammunition has arrived from Mexico.

A detachment of 25 men who were sent to Santa Teresa to search for concealed arms looted them, but no trouble followed.

The situation at the Continental Mexican Rubber company's plant, where 700 men are on a strike, remains the same. The management declares that it will not accede to the demands of the strikers, as the men were earning more money than is paid for similar services throughout this section, where wages are known to be higher than in almost any other part of Mexico.

EDWIN A. ABBEY DEAD IN LONDON

London, England, Aug. 1.—Edwin A. Abbey, the American painter, died at 1 o'clock this afternoon. Mr. Abbey underwent an operation for liver trouble about a month ago. A few days ago he suffered a relapse.

EL ORO MINES THE SCENE OF RIOTING

Miners Strike, Free Prisoners and Are Fired Upon by Soldiers.

El Oro, State of Mexico, Aug. 1.—In repelling a mob of striking miners who freed the prisoners in the local jail, the troops fired killing nine and wounding 32. The strikers were from La Esperanza mine, which they abandoned in the morning.

In the afternoon the men in the Mexico mine, an adjoining property, walked out and it is understood by the men of the El Oro mine that a strike will be called there today.

Fearing that they might be the victims of an anti-foreign demonstration, many American women were sent out of the camp on a special train over the El Oro mining railroad to Tuleanimo, whence they were taken to Mexico City over the National line. The fears were based upon a circular recently issued by the miners in which Americans were bitterly assailed.

More than 4000 men representing the underground forces of the Mexico and La Esperanza are out and if these men should be joined by those in the El Oro, the number of strikers would number about 7000. They demand higher wages, but it was stated officially that the properties would be closed before increases would be granted.

The stock of the three El Oro properties involved is held almost wholly by foreigners, principally British and Americans.

Soldiers Sent to El Oro.

Mexico City, Mexico, Aug. 1.—Four hundred soldiers left here last night for El Oro and 200 more rurales were sent from Toluca to assist in maintaining order. Late reports are that the men employed in the El Oro mine and the Des Estrallas have joined the strikers, bringing the total of strikers up to more than 9000.

TAXPAYERS' MEETING.

An anonymous call by postal card to a "meeting of taxpayers" to discuss "the city's proposed bond issue without auditing their books" sets the date for the meeting on Wednesday, August 2, at 8 p. m., at the chamber of commerce.

I DON'T BLAME HIM!

MORALES IS AHEAD IN SONORA ELECTION

State Election in Cananea Sunday Was Quiet and Orderly.

Cananea, Son., Mex., Aug. 1.—The state election held here Sunday was very quiet and everything passed off quietly.

In Cananea, Gayou, candidate for vice governor, will receive a total of about 18 votes. The race for that office was between Morales and Bonillas, the former from Ures and the latter from Nogales. It is difficult at

FEDERAL OFFICERS ASKED TO QUIT JUAREZ JOBS

(Continued from Page 1.)

Mesa to the American side of the river. They consented and Medina, who had a back ready, accompanied the two men to the American side. Successors to Romero and Mesa have not as yet been appointed.

Collector Quits Job.

It was then rumored that Alanzo Aspe, the collector of customs, had resigned, and it is said that he had received an acceptance to his request to resign from Mexico City, this morning. Camilo Arguelles, a customs broker in Ciudad Juarez, is slated as collector of customs in Ciudad Juarez for the time being. Aspe will go to Nuevo Laredo.

It is said that the compulsory resignation of all former federal officers, who are still holding office in Ciudad Juarez, will be made general, and it was reported that mining inspector Farrer would be given until 11 o'clock to resign, and go to El Paso, or that they would assist him in getting out of Juarez. Also that a government inspector who is due to arrive in Ciudad Juarez from Mexico City this evening would be escorted to the American side.

Insurrectos Hold Jobs.

The insurrecto customs employees in the city still retain their jobs and it is expected that they will for some time, as the other men who were employed previous to the battle will not show up. The men were back at work in the morning after the little trouble with the postmaster and mining and tax collectors and have quieted down and no more trouble is expected.

No word has been received from the messages sent by collector of customs A. Aspe and judge J. N. Amador to Mexico City, asking Ernesto Madero to revoke his order removing the present employees. Both men expect replies to the messages some time today.

Machine Gun Ready.

Several of the employees of the customs house said that the machine gun which had been placed in the customs

house by the federal before the battle of Ciudad Juarez, was still there, and would be brought into use by the men if the Mausers did not have the required effect when the federal customs men appeared.

ELIAS MAY SUCCEED GOVERNOR GONZALES

Hidalgo Anniversary Celebrated on Elaborate Scale in Chihuahua.

Chihuahua, Mex., Aug. 1.—At the meeting of the state legislature today action will be taken on the resignation of Abram Gonzales and it is probable that Canuto Elias will be elected to fill out the unexpired term. The legislature will also take action on the request of the governor to suspend the right to exemption from arrest of deputies supposed to have knowledge of the Banco Minero robbery.

The Street Car company of this city has just arrived at a settlement with the governor whereby the fare has been reduced from \$ to 5 cents and with the right to one transfer. In consideration of this reduction the company will not be asked to put on second class cars, nor to pay to the government 5 percent of their gross receipts as called for by its concession.

The celebration in memory of the 100th anniversary of the death of Miguel Hidalgo y Costilla, the patriot priest who was convicted of treason to church and state and suffered the penalty of death on the spot where now stands the state palace, was the occasion of much enthusiasm here today.

Delegations from every state and territory in the union placed wreaths on the statue of the hero of Mexican independence which stands in the Plaza Hidalgo, before a multitude of several thousands, who, at the termination of the floral presentations, were addressed by the governor and other prominent citizens. The insurrecto army, under the command of general Pascual Orozco, was drawn up in military order and lent a picturesque feature to the impressive ceremony.

Cadets from the Industrial Institute and delegations of children from the public schools, as well as of every political and social organization in the state marched to the statue and paid their tribute.

In the patio of the palace a guard of insurrecto infantry stood at attention surrounding the exact spot of the execution of the hero which was visited by many thousands during the day.

The new federal building across the street from the palace, which surrounds the tower which was used as a prison, and where Hidalgo spent his last days on earth, was also the center of much interest.

In the evening at the Teatro de los Heroes, public addresses were made by leading citizens to a crowd that filled the building to its capacity many being denied admission.

SOLDIERS COMING TO CIUDAD JUAREZ

Two Hundred Troops Are to Come From Chihuahua This Week.

Two hundred troops will be sent to Ciudad Juarez from Chihuahua city some time during the present week and it is expected that they will arrive in the city Thursday night. The men are sent in order to strengthen the garrison of Ciudad Juarez, which has been depleted on account of the sending of troops in pursuit of the Magonistas, and the placing of troops in the small towns in the Juarez district since Gen. Blanco has been made commander of rurales in northern Chihuahua, and requested the troops to be sent.

The men who will be brought to Ciudad Juarez will be taken from the insurrecto troops now in Chihuahua and are members of Pascual Orozco's army.

It is expected that captain R. Campo, an insurrecto army officer, will have charge of bringing the troops to Ciudad Juarez. Captain Campo arrived in Juarez Monday night and he came to the border city for the purpose of seeing if Gen. Blanco wished to have more troops under his command.

NEW MEXICO SUES CITY OF SANTA FE

Enjoins City From Collecting Fee for Building Permit.

Santa Fe, N. M., Aug. 1.—The territory of New Mexico and the city of Santa Fe yesterday "went to law" over 50 cents, the fee which the city claims from the territory for issuing a building permit for a garage on the grounds of the executive mansion.

The territorial authorities claim the fee is in the nature of a tax, from which they claim exemption, and yesterday secured a temporary injunction restraining the city from collecting the fee.

Final hearing in the matter will come before the court August 10.

GIRL IS AWARDED AERO PILOT LICENSE.

Hempstead, L. I., Aug. 1.—Miss Harriet Quimby was awarded a pilot's license today by the aero club of America, the governing body of aeronautics in this country.

This is the first license that has ever been awarded a woman aviator in America. Miss Quimby, who flew in a Moisant monoplane, is a native of California.

Keep Healthy and Vigorous

Loss of appetite, lack of energy, quickness to tire are not, as you think, a natural result of hot weather, but are really symptoms of a disordered physical condition. They show to a trained mind that the organs of the body, from many causes, are not properly performing their respective duties—the stomach may easily digest some kinds of foods and reject others—the kidneys, or liver, may be slightly or greatly out of order—and any one, or all of these conditions, may be responsible for a debilitated system.

Deffy's Pure Malt Whiskey

taken as directed will quickly put every organ in the body in perfect working condition. The stomach, heart, liver and kidneys will adjust themselves and work in harmony to your better health, and the hot weather will not inconvenience you physically or mentally.

Deffy's Pure Malt Whiskey is the only whiskey that was taxed by the government as a medicine during the Spanish-American War.

Sold in SEALED BOTTLES ONLY by all druggists, grocers and dealers or direct \$1.00 a large bottle. Medical booklet and doctor's advice free on application.

The Deffy Malt Whiskey Co., Rochester, N. Y.
